Summary

Recent graduate of a Master of Computer Science program at Dalhousie University. Software developer with a reputation for rigorous thinking and methodological consistency. I am looking to start my career in the private sector.

I aspire to learn, design, build, and explore complex computer models. I also aspire to outgrow any duties given to me. I promise to provide maximum effort, to be open to criticism and new ideas, and to be someone you can trust to adapt and perform to new situations and technologies.

Education

Dalhousie University · HALIFAX, CANADA

Master of Computer Science · *2014 – 2015*
- Education in Adv. Data Structures, Algorithms, Heuristics, and Natural Language Processing.
- Written a thesis *Sampling Discrete Combinatorial Spaces in Phylogenetics* on combinatorial space visualization and analysis in bioinformatics.
- Published and currently maintain a Python software framework for combinatorial space analysis.

Supervised by Assoc. Prof. Christian Blouin. *Extracurricular*. Computer Science Graduate Society, Executive Secretary for later term of 2014.

Bachelor of Computer Science with Distinction • **GPA 3.8** • **Dean's List** · *2008 – 2013*
- Thorough understanding of computer science fundamentals.
- Further focus on adv. concepts in mathematics (geometry, cryptography, linear algebra) alongside a strong understanding of chemistry.
- Completed individual and collaborative software projects in Java incl. a geo-location mobile game.
- Featured experience working with clients through a Community Outreach program.

Extracurricular. Computer Science Society, Dalhousie University, Executive Secretary as of 2012-2013; Sodales Debating Society, Executive Secretary in 2010.

Experience

Dalhousie University · HALIFAX, CANADA

Teaching Assistant — *Operating Systems* · *Winter 2015*
Marked software assignments written in C. *Reference*. Assist. Prof. Michael McAllister.

Teaching Assistant — *Principles of Programming Languages* · *Summer 2014*
Marked software assignments written in Scheme and Prolog. *Reference*. Prof. Philip T. Cox.

Teaching Assistant — *Concepts in Computing, Bioinformatics* · *2012 – 2014*
Reference. Assoc. Prof. Christian Blouin.

Research Assistant & Software Developer, Blouin Lab · *2012 – 2014*
Orchestrated work in different areas of bioinformatics. Helped construct Python libraries for geometric morphometric analysis of 2D and 3D biological structures, for molecular dynamics, for protein homology modelling, and for the parsing of essential file formats. Performed a great deal of debugging and restructuring of existing Python code base. *Reference*. Assoc. Prof. Christian Blouin.

Teaching Assistant — *Communication Skills: Oral/Written* · *2012 – 2013*
Marked and helped teach oral presentations and common business document writing. *Reference*. Instr. James Fleming.

Learning Centre Staff, Faculty of Computer Science · *2012 – 2013*
Worked as a tutor at set hours in a faculty help facility for any Computer Science or Informatics undergraduate-level course. *Reference*. Prof. Nauzer Kalyaniwalla.

Research Assistant, White Lab · *Summer 2010*
Worked as a summer research assistant in the Department of Chemistry for a group focused on physical chemistry of materials, and helped write a journal article for the Ashrae 2011 Annual Conference on Solar Panels and the use of Phase Change Materials (PCMs) to store energy. A prototype was helped built for this manner of application for a local facility. *Reference*. Prof. Mary Anne White.

Research Assistant, Wentzell Lab *Summer 2009*
> Worked as a summer research assistant in the Department of Chemistry for a group focused on chemometrics and the analysis of chemical data, and helped write a suite of software in Matlab that helped in the finding of genetic motifs in DNA sequences and to evaluate statistical plots of findings. *Reference*. Prof. Peter Wentzell.

Awards & Achievements

Natural Sci. & Eng. Research Council (NSERC) CANADA
> **Undergraduate Student Research Award** *2009, 2012, 2013*
> Procured funding for the working in a computer science laboratory during the summer term on the merit of grades and indication of interests. Awarded at three different occasions.

Skills

Technical Knowledge Software design and implementation, with(in) a team. Technical and scientific writing. Adv. experience with Python, Java, C, Objective-C, and Perl. Elementary to intermediate knowledge with C++, C# (.NET framework), Go, Scala, Lua, Prolog, Haskell, Scheme, Matlab, and R. Knowledge of database technologies: MySQL, SQLite, NoSQL. Knowledge of web technologies: HTML+CSS, XML, REST, JSON, JavaScript (jQuery, D3).

Methodologies Have worked with different tools of machine learning incl. support vector machine (SVM) and random forests. Have also done a large deal of information extraction, data classification, data visualization, and data mining using conventional and classical tools.

Natural Languages English *(mother tongue)*, Arabic *(limited working proficiency)*, and French *(elementary proficiency)*.

Interests

Non-exhaustive and in alphabetical order: Art, cryptography, gaming, guitar, music (collecting, recording), open source, philosophy, reading, typography.

Open Source Project Contributions

Minor Contributions: Chromium Browser, App-Icon-Template.
